

# CITY OF EAST LANSING

## The Home of Michigan State University

August 30, 2022

Dear Resident/Property Owner:

This is to provide notification that construction road work is tentatively scheduled to begin the week of September 19<sup>th</sup> on **West Road** from Coleman Road to Lake Lansing Road and will commence to **Coolidge Road** from Coleman Road to State Road. The project is anticipated to be completed by the end of October 2022. These improvements are part of an ongoing program to improve the infrastructure throughout the city. Please see reverse side for location map.

Work on Coolidge Road and West Road will consist of spot curb and gutter repair, manhole structure adjustments, and HMA milling and resurfacing. The roadway that is being worked on will be closed to through traffic. This is for the safety of the public and construction crews, and to allow the contractor space to operate. Local resident and commercial property access will be maintained to the greatest extent possible. Motorists and residents are encouraged to follow the posted detours and seek alternate routes if available for the project duration.

Street lighting in your area may also be impacted during construction. Due to the proximity of the underground electric cables to the construction activities, the streetlights in your area may be turned off to protect the construction personnel performing the work. The streetlights will be reenergized as soon as the construction progresses to a stage where the utility company can safely restore power.

If you have any questions or have any special needs or concerns, please contact us at the East Lansing Engineering Department. I would ask that you email me if you wish to be included in general updates during the project, to keep you better informed of progress and schedule.

Residents can also find project updates at [www.cityofeastlansing.com/construction](http://www.cityofeastlansing.com/construction). Checking back regularly for updates is recommended.

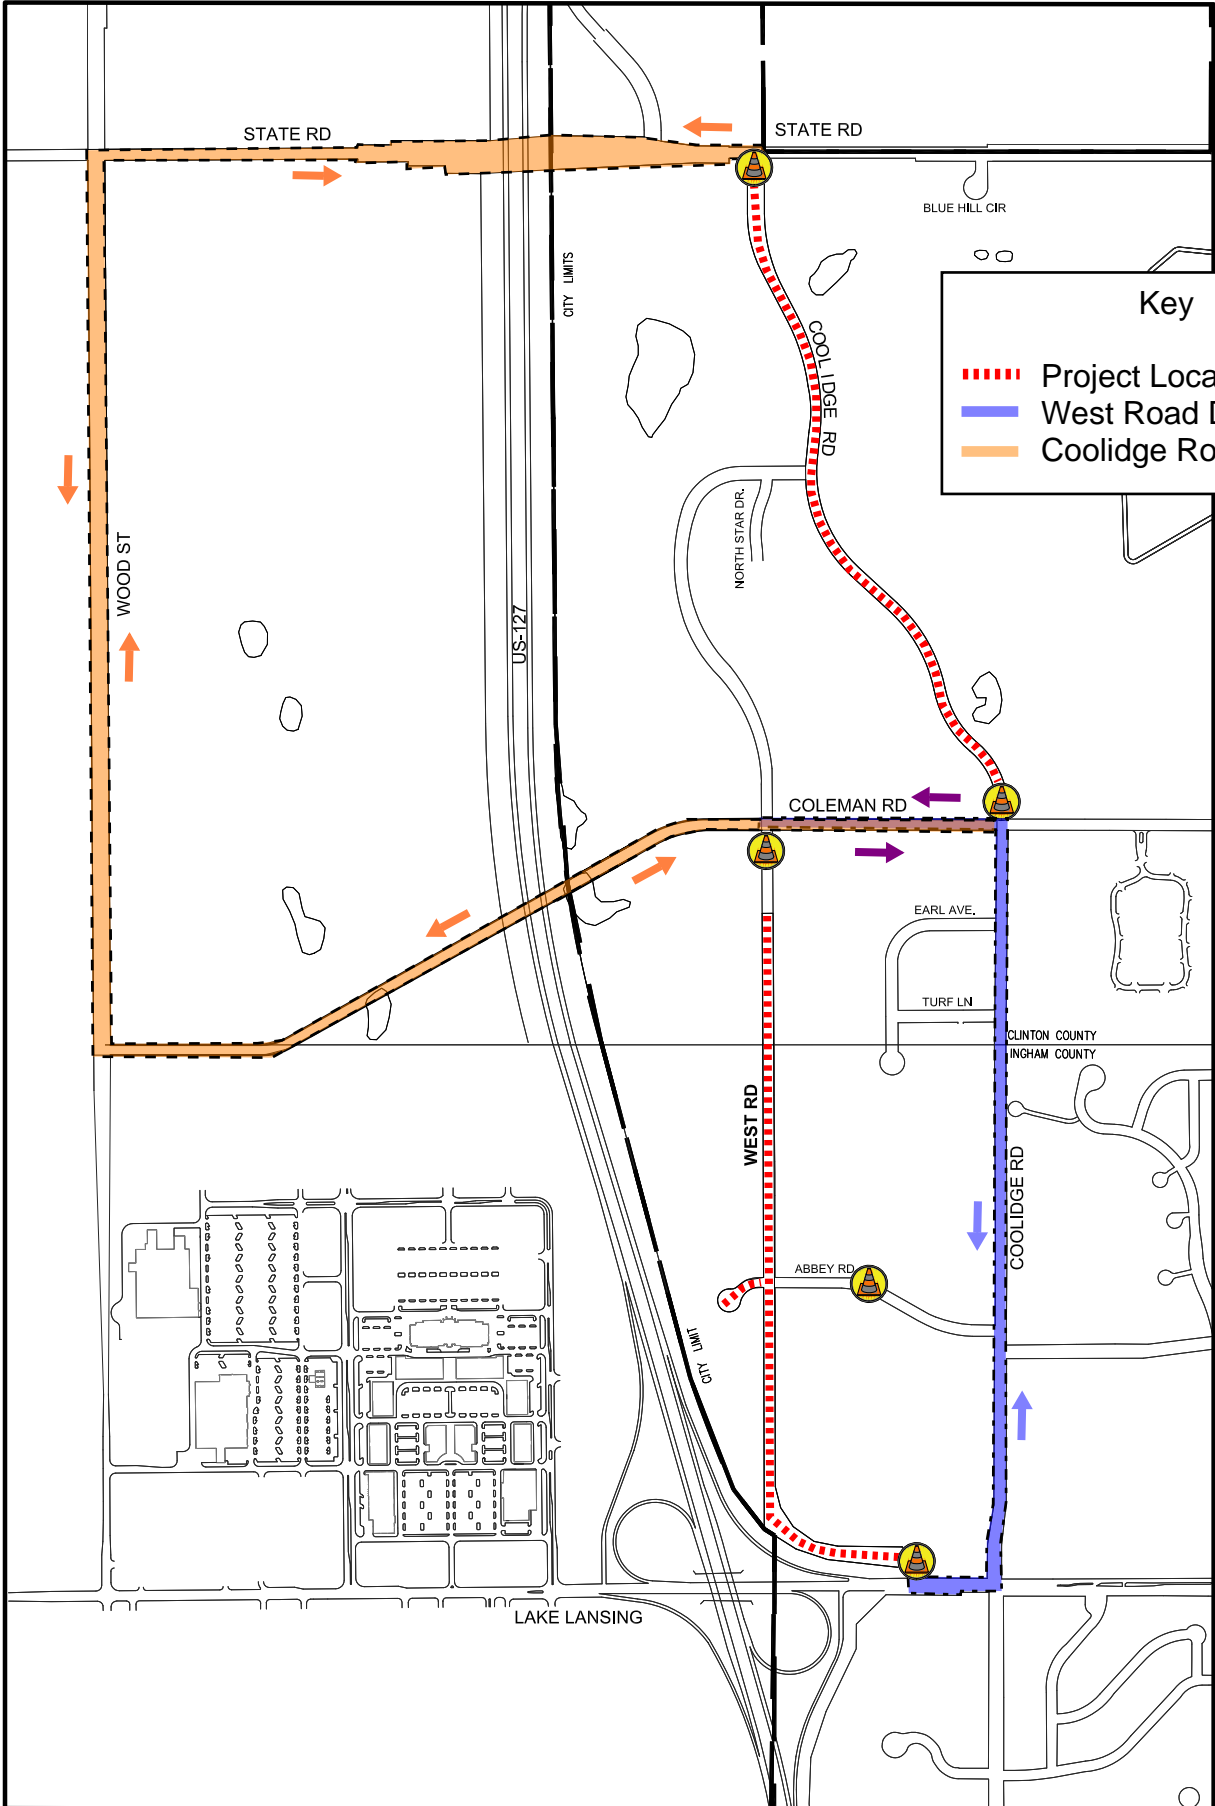

Sincerely,

Aden Duong
